News Update March 2025

Your guide to the latest in optometry, clinical practice, CPD events and more

Optegra Launches Pioneering Cataract Treatment For NHS Patients The Treble - UK 1st!

For the first time ever in the UK, Optegra has offered NHS patients a pioneering “treble” of cataract care:

NHS patients at our Hampshire hospital have reaped the benefits of a unique approach to cataract surgery. The outcomes have been outstanding – both medically and in patient satisfaction.

Exciting News - Our Free Transport Service Launches in Select Locations!

We are excited to announce the launch of our free private vehicle transport service for eligible patients attending Optegra hospitals! We are actively promoting free transport services for patients on their surgery day in Birmingham, Leicester, Manchester, Newcastle, Nottingham, and may extend the service to additional locations.

Exciting Times Ahead for Optegra Birmingham!

We will soon be offering glaucoma treatment for NHS patients at our Birmingham Hospital!

Did you know that Glaucoma can develop with no obvious symptoms until significant vision loss has occurred? Early detection is key, so we're making it easier than ever for patients to protect their sight in time.

We are excited to offer the local community top-tier eye care, with customised treatment plans designed to meet each patient's unique needs.

Optegra's Deaf Group and London Team Walk for a Cause: Supporting Guide Dogs on a Sponsored Walk!

Optegra are proud to have selected Guide Dogs as its corporate charity, as voted for by colleagues across our 18 hospitals.

Almost two million people in the UK are living with sight loss that has a significant impact on their daily lives. Of those, around 180,000 rarely leave their homes alone and lead lonely, isolated lives.

We have a range of activities planned to raise funds for this worthy cause, and any contribution our patients, colleagues and friends can make is hugely appreciated.

Did You Know?

March is Workplace Eye Awareness Month

Under the UK's Health and Safety (Display Screen Equipment) Regulations 1992, employers are legally required to provide and pay for an eye test if an employee regularly uses display screen equipment such as computer monitors and requests one.

With Workplace Eye Awareness Month highlighting the importance of vision health, this is a great reminder for both employers and employees to prioritise eye care in the workplace.

Regular eye tests not only help detect changes in vision but also contribute to better workplace comfort, productivity, and overall well-being.

First class experience

From entering the hospital to leaving, I could not have been looked after in a more caring way. I was amazed at how quickly the procedure took and all the staff put me at ease.

The procedure was explained very clearly at every stage and was over before I had time to think about it. Thank you to everyone at Optegra Yorkshire Eye Hospital Apperley Bridge.
