Patient Feedback

Great specialist who was very polite and friendly, he always ensured I was doing okay whilst I was having my surgery and telling me what he was doing next so I knew what was happening at all times which was great, can't fault his work at all, he's honestly changed my life with this cataract surgery.

Superb! Talked me through the whole process. Very chilled and reassuring.

Professional, kind, and he calmly explained the procedure throughout the operation. I could not have asked for a better surgeon, thank you.

Friendly and explained what was happening at all times. Made sure I was comfortable and ok throughout the procedure very reassuring.

Mr Fadi was very courteous, understand of patient's anxiety and fears of going through surgery, empathetic and excellent service.

I was informed by the consultant throughout the surgery what was happening at each stage which was helpful to me. The whole experience was excellent.
