What Our Patients Say

“If you're looking for a highly efficient and professional eye hospital, I can't recommend Optegra enough. I had RLE surgery here and couldn't be happier with my choice!”

– Julian

“A very pleasant and calming environment with friendly and caring staff. I was well cared for during both the assessment appointment and surgery procedure.”

– D Gibbs

“I had cataracts removed at Optegra. I cannot fault the treatment I received from start to finish. The staff were excellent, friendly, and all made you feel at ease. The whole process was fully explained and pain free!”

– Trevor Taylor

Why Wait and See?

Vision correction in as little as two weeks

Our Vision Correction Treatments

All our treatments are fast, pain-free and include up to 12 months aftercare. All prices per eye.

Laser Eye Surgery

LASEK £1,495

- Results are proven and comparable to LASIK
- Less chance of dry eye than LASIK
- Sporting activities may be resumed sooner than with LASIK

LASIK £2,095

- Painless treatment
- Majority of patients no longer need glasses or contact lenses
- Over two decades of excellent results with proven long-term stability and safety
- Efficient recovery with minimal downtime

SMILE™ £2,695

- Most advanced laser eye surgery available
- Treatment takes less than 15 minutes
- Better for the stability of the cornea
- Less risk of developing dry eyes
- More patients are eligible for SMILE

Presbyond / Complex Laser £2,995

- Ideal for patients over 40 who's near-vision focus has deteriorated (presbyopia)
- Can treat presbyopia alongside other visual impairments, such as astigmatism
- Allows for vision to be further adjusted to align with changes that occur due to age

Lens Replacement Surgery

Monofocal RLE £3,495

- Minimal discomfort
- Quick recovery time
- Immediate vision improvement
- No requirement for cataract surgery in future

Multifocal RLE £4,195

- Corrects vision at multiple distances
- Convenient for an active lifestyle
- Advanced visual freedom
- No requirement for cataract surgery in future

ICL Surgery

ICL (Implantable Contact Lens) £3,595

- Excellent alternative to laser eye surgery
- Lenses provide UV protection
- High prescription correction up to -20
- Reduced risk of dry eyes
- Reversible for lifelong flexibility

Finance Options

- 0% interest finance available up to 24 months
- Other finance options available up to 5 years

Cataract Surgery

Standard £2,995

- Most widely performed cataract surgery
- Sharper vision at one distance
- Able to have same day surgery on both eyes
- Most cost-efficient cataract treatment

Enhanced £3,695

- Enhanced lens for distance and intermediate vision
- Toric lens options to correct astigmatism
- Crisper, high-contrast vision with minimal visual side effects

Advanced £4,195

- Significantly reduces or even eliminates the need for glasses
- Wide range of lens options available, including multifocal lenses for distance, intermediate and near vision
- Suitable for complex vision needs

- ✓ Rated excellent on Trustpilot
- ✓ World-renowned surgeons and exceptional care
- ✓ State-of-the-art technology delivering outstanding results
